## **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Christopher Lipp on June 14, 2006.

The application has been amended as follows:

24. (previously presented): A radio network controller comprising:

means for receiving from a base station a capacity credit and a capacity consumption law, and

means for, in the case of a variable spreading factor, updating the capacity credit on the basis of the capacity consumption law and a reference spreading factor.

31. (previously presented): A radio network controller comprising:

means for receiving from a base station a capacity credit and a dedicated channels capacity consumption law, and

means for, in the case of a variable spreading factor, updating the capacity credit on the basis of the dedicated channels capacity consumption law and a reference spreading factor signaled to said radio network controller in an Information Element "Min UL Channelisation Code Length" of a message "Radio Link Setup Request Message".
